Sampling Instructions

Please review, prior to sample collection.

- Take sample from site specified in your permit.
- Fill all sample bottles to the bottom of neck or to the designated fill line.
- **Please Use Caution** when filling containers, as containers may contain an acid preservative. **Do not rinse out the preservative.** Depending on your company's permit requirements, there may be additional bottles included. Please treat them in the same manner as specified above.
- Fill out labels on sample bottles.
- Place double bagged ice in with sample bottles.
- Fill out Chain of Custody Agreement below.
- Sign and date the form at Relinquished By.
- Samples must be returned to the laboratory within **24 hours** from time of collection to ensure the pH is analyzed within holding time.
